

31st CWPA Proceeding Papers

Table of Contents

<u>President's Opening Address</u>	1-3
Criag Wilson	
<u>Future of Industrial Wood Preservation in Canada</u>	4-18
Paul A. Cooper	
<u>Creosote and Creosote Treated Wood</u>	19-22
Henry Walthert	
<u>Pentachlorophenol as an Industrial Preservative</u>	22-25
Herb Estreicher & John Wilkinson	
<u>CCA as an Industrial Preservative</u>	26-28
Allan Miller	
<u>ACZA as an Industrial Preservative</u>	No Paper Available
<u>The Potential of Amine Copper Preservative Systems as Industrial Preservatives</u>	29-34
Cliff Baker	
<u>Bridge Timbers</u>	35-43
Gary Farnden	
<u>Treated Wood Poles at Hydro-Quebec</u>	44-52
E. Potvin, L. Gastonguay, S.Besner, K. Kapfer, J.F. Labrecque, M. Perrier & S. Verreault	
<u>Marine Uses of Preservative Treated Wood</u>	53-66
Gouin Barford	
<u>Stave Pipes</u>	No Paper Available
<u>Industrial Cooling Towers and Pressure Treated Wood</u>	67-71
Lloyd Olson	
<u>Wood Foundations</u>	No Paper Available
<u>Field Testing of Wood Preservatives XIX: Industrial Preservative</u>	72-78
P.I. Morris & J.K. Ingram	
<u>Re-Evaluation of the Heavy Duty Preservatives</u>	No Paper Available

Scale-Up of a chemical Leaching Process for Decontamination of CCA-Treated Wood Waste	79-86
A. Janin, L. Coudert, JF. Blais, B. Mercier, P. Cooper & L. Gastonguay	
LCA Could be an Environmental Boon to PTW	87-91
Huck DeVenzio	
Status Check 2010: What Shade of Green Are We Now?	92-93
Jennifer O'Connor	
Potential Impact of the Wood First Act on Preserved Wood Products	94-102
Werner Hofstätter	
Building Enclosure Design Guide – Wood Frame Multi-Unit Residential Buildings	103-109
David Ricketts	
Advances in Analytical Techniques for Treated Wood	110-118
L. Jin, P. Walcheski, A. Zahora, C. Schauwecker & A. Preston	
An Update on Micronized Copper Preservatives	No Paper Available
Tru-Core Pre-Treatment for Railroad Ties	No Paper Available
Recent Research on Carbon-Based Preservatives	119-135
Rod Stirling, Angela Dale & Paul I. Morris	
Photostability of Modified Wood	136
P.D. Evans	
The Chemistry of Copper Based Wood Preservatives	137-146
John N.R. Ruddick	
Finite Element Modelling of the Checking of Wood Exposed to Accelerated Weathering	147-164
SG Ribarits & P.D. Evans	
Chemical Treatments as Alternatives to Heat or Fumigation for Minimizing Phytosanitary Risks of Wood Products in Commerce	165-182
J.J. Morrell, A. Uzunovic, R. Stirling, P.I. Morris & C.F. Schauwecker	
CWPA By-Laws	
CWPA 31st Program
